## SUMMARY

---

Backend Engineer with hands-on experience in Laravel-based development, API design, and building scalable internal tools. Skilled in PHP, MySQL, AWS RDS, and Python, with a strong foundation in testing, data workflows, and performance optimization. Proven ability to collaborate in cross-functional teams, resolve production issues quickly, and deliver features that improve operational efficiency. Passionate about leveraging technology to enhance user experiences and enable seamless system integrations.

## TECHNICAL SKILL

---

- **Languages & Tools:** PHP, Laravel, Python, SQL, JavaScript, HTML, CSS, Git, GitLab, Jira
- **Databases:** MySQL, Amazon RDS
- **Backend & APIs:** RESTful APIs, authentication, caching strategies, Laravel queues & jobs

## EXPERIENCE

---

### Internal Systems Coordinator | Maple Key Supply, Toronto

May 2024 - Present

- Designed and built a **custom Laravel-based internal tool** for price lookups, improving workflow efficiency and reducing manual errors by 35%.
- Developed **Tableau dashboards** for real-time inventory tracking and data-driven decision-making.
- Supported **system performance optimization** by identifying database inefficiencies and implementing improved query structures.
- Collaborated cross-functionally with inventory, dispatch, and technical teams to **translate business needs into backend solutions**.
- Provided **frontline technical support** and **troubleshooting**, resolving system issues and maintaining operational continuity.

### Web Developer

KTM Rush | Mar 2022 - Nov 2022

- Designed and developed **RESTful APIs** and integrated them with mobile and web applications.
- Implemented **secure authentication** and optimized database queries to improve API response times.
- Collaborated with QA engineers to perform **functional and regression testing**, ensuring smooth release cycles.
- Analyzed production logs, debugged issues, and deployed fixes, reducing downtime by 20%.
- Documented API endpoints and data workflows to improve **knowledge sharing** and onboarding efficiency.

## Web Developer

*Seshra Innovation | May 2020 - Mar 2022*

- Delivered **full-stack web applications** using **Laravel**, including database schema design, backend logic, and responsive front-end components.
- Leveraged **queues and jobs** to improve performance on high-load operations.
- Led efforts to integrate **third-party APIs**, enabling new product features and expanding platform capabilities.
- Participated in **unit and integration testing** to ensure application stability.
- Partnered with business stakeholders to gather requirements and deliver technical enhancements.

## Web Development Intern

*IT Solutions | Feb 2020 - Apr 2020*

- Gained practical experience in **Laravel framework** and backend API development.
- Assisted in the **full software development lifecycle**, from requirements gathering to deployment.
- Supported QA validation and documented identified issues for resolution.

## EDUCATION

---

### Ontario College Graduate Certificate, Artificial Intelligence & Data Science

*Loyalist College, Toronto, ON*

*Jan 2023 – Apr 2024*

**Dean's List**

### Bachelor of Science - Computer Science and Information Technology

*Tribhuvan University*

*2016 - 2020*

## CERTIFICATION

---

- **Google Data Analytics** – Google
- **Advance Laravel** – LinkedIn

## VOLUNTEERING

---

### Social Media Manager

*Bluffs Food Bank, Toronto | May 2023 - Present*

- Designed and scheduled social media content to increase donations and community engagement.
- Analyzed performance metrics to adjust content strategy.
- Documented outreach strategies and social content planning for future volunteers.
